Ronit Bird is an experienced teacher with an excellent reputation for helping children to understand math. This book offers 100 reproducible games to help teach key aspects of numeracy. Carefully designed so that no equipment is needed beyond that found in the average home, these games and puzzles actively encourage practice in using reasoning methods. Part I focuses on addition and subtraction, and Part II targets multiplication and division. Grids link each game to a specific numeracy topic, as well as listing the number of players required and equipment needed. All 100 games and puzzles are also available on the accompanying CD.
